Why Choose Red Phase ECT-4?

Quality guaranteed

Red Phase Instruments use quality parts and delivers superior workmanship at every stage of the design and assembly process. That is why we're offering an extended warranty on our bonding tester unit, Model ECT-4.

Reliable and responsive

We know our instruments are the industry's most reliable. But that's only part of the story. We also provide a technical support service that's centred around our small, closely-knit product development team who can solve problems swiftly and competently.

Smart unique features

Exclusively designed to meet the demands of test professionals for increased mobility and efficiency, the ECT-4 unit has smart, practical features that you won't find anywhere else.

Surprisingly affordable

Every Earth / Ground testing professional deserves to have a Red Phase continuity tester. The Model ECT-4 is priced affordably so you can have the best at a recoverable cost.

In expert hands

When you purchase an ECT-4 you know that you're getting the very best money can buy from the leaders in Earth and Ground Systems test equipment. Red Phase won't let you down, so act now to secure yours.

www.redphase.com.au

The model ECT-4 comes accessorized with a back pack, probe holster, 10m and 100m reel, a battery, charger, a reference block and all necessary cables and accessories to begin testing out of the box.

Red Phase Instruments reserves the right to alter product specifications and equipment configurations without notice.
